STRAP-GUARD™ BY CHOK-A-BLOK™

STRAP IT • PROTECT IT • SHIP IT

Sea-Dog has introduced a new patented product that protects boats, ATV's, motorcycles, or whatever is important to you from getting damaged in transport. We are the exclusive importer of Strap-Guard, manufactured in the United Kingdom by Chok-A-Blok.

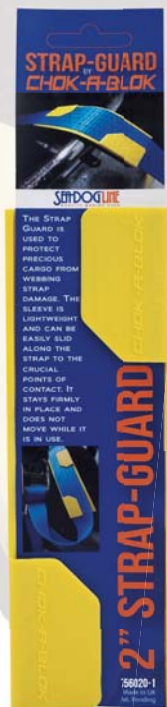

The polypropylene sleeve with a nitrogen-filled closed cell-cell foam backing is lightweight, tough, flexible and is resistant to moisture, oils, solvents, dilute acids, and UV rays. As tension is applied to the strap, frictional damage to the surface of the cargo is eliminated as the strap is allowed to slide cleanly and effortlessly across the polypropylene surface.

The Strap-Guard is for use with 2" wide straps, measuring 2-3/8" wide by 7" long by 3/4" thick. It is available as a packaged product on a hang tag (part number 756020-1), sold in display boxes of 15 pieces per box. It is also available in bulk (part number 756020), sold in display boxes of 20 pieces per box, with each item having a bar code sticker.

Suggested retail selling price for the packaged version is \$10.99 each, and \$9.99 for the bulk version. Contact Sea-Dog or your local distributor for information regarding availability and further details.
