Your Paddlesports Hardware & Repair Solution

If you've been around a paddlesports shop before you know the story ... kayak hardware and accessories get tucked away in a corner just taking up space - thrown in buckets with no packaging or barcode. At SEA-LECT Designs, our goal is simple; to bring all those hard to find hardware and repair accessories out of the back room, storage closet and tackle box behind the counter, and make them easy to find!

We've taken retail packaging for paddlesport hardware to a whole new level. Every item is individually packed in one of our attractive blister packs, clamshells and/or retail bag with a header card; and, it includes its item number, UPC code and features a unique barcode to work with inventory management systems. When combined with our innovative merchandising options, every shop can now have the tools it needs to solve the problem of providing hardware & repair accessories.

Innovative Merchandising Option

In 2014 SEA-LECT Designs is happy to build on the success of our spinner, panel and merchandising displays. We have a merchandising option for every paddlesports store, regardless of your size, shape, or space limitations - and over the past four years our products have begun to pop up in kayak shops across the globe.

About SEA-LECT Designs

A division of marine hardware manufacturer Sea-Dog Corporation, one of SEA-LECT Designs' focal points is producing high-performance hardware and repair accessories through partnerships between customers, and our internal design team.

Made in Everett, WA! With the injection molding capacity of our sister company SEA-LECT Plastics, most of our plastic products are made in the United States where we control all phases of manufacturing to ensure a consistent quality. This means no outsourcing, great pricing, and unmatched reliability in customer service. In addition, through the vast resources of Sea-Dog Corporation, SEA-LECT Designs is able to purchase in quantity to pass along a lower cost alternative for many of those items which need to be brought in from other sources.

As an independent manufacturer of components (we don't manufacture kayaks ourselves, just the parts and pieces that make them up), we're able to concentrate solely on the hardware every paddler needs. As a supplier for boat builders and manufacturers from coast-to-coast ... and throughout the world ... we guarantee you've seen our pad eyes, deck line guides, cleats, anchors, rod holders, foot braces and hatch covers on a boat in your neighborhood!

SEA-LECT Designs is committed to bringing more innovative hardware & repair solutions to the Outdoor Industry, and your Paddlesports Community. For more information, contact us at (425) 252-2149, or e-mail info@sealectdesigns.com.

Our Kayak Adjustable Footbrace w/ Rudder Control offers the same great benefits as its fixed counterpart ... but you guessed it, with the added benefit of rudder control capabilities. One of the easiest footbraces to adjust while on the water, they're available with either a black or red rod. Purchase the Rudder Control Upgrade Kit (Item # 747250-1) and turn our fixed footbraces into a pair of rudder control footbrace by simply swapping out the pedals.
