Dear Marine Retailer:

The key to setting up a profitable and productive retail store environment is to make your customer feel comfortable, let them linger longer, and easily find what they need. Or even better, find what they didn't even know they needed.

Boaters are like every other product consumer – they expect to come into your store to quickly and easily find the products they are looking for. Your challenge is to make this happen quickly and simply, but those things can prove to be easier said than done.

Sea-Dog's award winning merchandising program allows you to offer a greater variety of top selling products that satisfies your customer and increases your profit potential. By offering top quality products at competitive prices, we provide you with clean, neat, and organized displays to provide your customers with a better and more productive shopping experience.

Our Coastal and Inland Spinners provide a broad range of our top-selling items in a compact space, with items clearly displayed on 6" hooks (and every hook has a back tag for that item. Merchandising for profit doesn't have to be expensive.

When you buy a spinner, panel, or P.O.P., you're just paying for the product – all of the display structure materials are provided free of charge. Helping you sell more helps us sell more and we all win.

You can count on Sea-Dog quality, value pricing and POP merchandisers to lead the way to greater profits. Please see this guide or our website to see what's available, and call your distributor for more details.

Regards,
 Sea-Dog Crew & Salty The Sea-Dog
