Moving Ahead With Sea-Dog

As the North American marine market continues to strengthen and grow, Sea-Dog is looking forward to the 2016 selling season. Once again, we are introducing a broad assortment of interesting new products which will be available in the fall of 2015.

A new upgraded version of the popular single and dual mini-compact horns will have an over-molded steel housing that allows us to offer an unprecedented Five Year Warranty on these two new horns. A contemporary update on a classic product is our beautiful new stainless steel "can style" spotlight that is waterproof and also comes with a Five Year Warranty. Other new products include LED lighted handrails, an upgraded, brighter bulb docking light set, LED drink holders, a cast stainless steel adjustable wrench, more new cordage products, and a new smaller boat hook to broaden our "Build a Better Boat Hook" line of boat hooks that we introduced last year. All of these items, plus a lot more, are shown in this copy of the 2016 Supplement (we print new catalogs in odd numbered years and new product supplements in even numbered years) and also on our website.

As we have done for the past 95 years, we continue to work to provide quality marine accessories at affordable prices. Sea-Dog takes great pride in our ability to maintain a strong balance between competitive cost and high quality because we want our customers to always be confident in every Sea-Dog product they buy. We want to provide a satisfactory purchasing experience every time, and if for some reason we don't, we want to hear about it so that we can take care of it.

The support of all of our customers, including distributors, boat builders, wholesalers, dealers, and the end user has been the key element of our longevity and continued success, and we remain committed to maintaining that level of trust and support. We are committed to providing all of our customers with the products and service they expect, and we welcome and appreciate any and all feedback. Because we only sell wholesale and not direct to the

public, it's always important to hear from all of our customers, and most especially the end user – it is our hope that all of our customers feel free to contact us by phone (always answered by a live person during regular business hours) or e-mail anytime.

Thank you for making Sea-Dog your supplier of choice – your support is vital to our success and is greatly appreciated.

Sea-Dog does not sell to the general public – we only sell to boat builders and wholesalers. For information on how to purchase our products, visit the "Where to Buy" page on our website.

To Order

To place an order, please contact us in one of the following ways (e-mail preferred for order accuracy):

E-mail: orders@sea-dog.com

Sea-Dog boat hooks feature an over-molded soft rubber coated hook to protect your boat from scuffs and scratches. The bright orange rubber tip cover is readily visible and removes for accessory attachment. The four-point hook attachment, comfort grip handle, and marine grade aluminum tubing make for a high quality and durable accessory. Its buoyant design keeps the boat hook afloat for more than six minutes.

Replacement Hooks

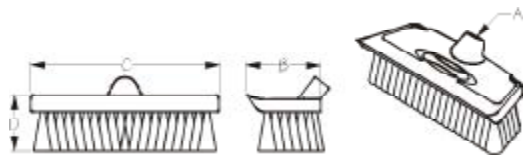

491051-1 (small hook): used on models 491021-1, 491024-1, 491034-1, and 491036-1.

491052-1 (large hook): used on models 491012-1 and 491013-1.

LED Drink Holder has three LEDs and is available with red or blue lights. Dual purpose design allows the use of beverage cans with or without insulated can wraps, as well as most sizes of bottles. The bottom is padded with a rubber insert to prevent rattling, and the drain fitting allows water to be drained into the bilge – use 1/4" tubing secured with a tie-wrap. 12 volt DC.

BOAT HOOKS

Sea-Dog Boat Hooks come in a wide range of sizes, some fixed in length (1 piece) and some with variable lengths (2 and 3 piece).

Twist at the knurled grip to operate the hook's telescopic feature.

See p. 8 for sizes and dimensions

1 | Rubber Tip Cover

A screw-on soft rubber tip prevents scuffing and is removable for accessory attachment. Bright orange color provides easy in-the-water visibility.

2 | Over-Molded Rubber Hook

Our boat hook features an over-molded soft rubber coating to protect your boat from scuffs and scratches.

3 | 4-Point Hook Attachment

The hook is attached at four points on the aluminum pole instead of the usual two on most competitive models for greater strength and durability.

4 | Marine Grade Aluminum Tubing

Every Sea-Dog boat hook is made from marine grade aluminum tubing, allowing for smooth and reliable operation over the life of the product.

5 | Comfort Grip Handle

The UV protected rubber handle provides a cushioned grip and comes with pliable hanging loop.

6 | Mooring Hook Attachment Platform

The boat hook features a pre-drilled platform area to install a mooring hook.

7 | Knurled Telescopic Grip

Each telescopic boat hook model features a knurled grip to allow for easier gripping and operation.

8 | Buoyant Design

Sea-Dog boat hooks have been tested for buoyancy in both fresh water and salt water, and remain buoyant for over 5 minutes.
